

Radioactive Material Packaging Training

Course Description

This course is designed to provide participants with detailed information regarding packaging for radioactive material. Discussion ranges from general requirements for excepted packaging, to testing and documentation for industrial, Type A, and Type B packaging. AAHP has awarded sixteen (16) CEUs for this class. Materials will be provided to facilitate completing the course.

Successful participants receive a certification stating that the training meets the requirements of 49 CFR 172, Subpart H.

Who Should Attend?

Personnel who are responsible to procure or test radioactive material packaging and/or its components.

AtkinsRéalis
